PRIVACY NOTICE ON THE PROCESSING OF PERSONAL DATA FOR CUSTOMERS AND SUPPLIERS (pursuant to Articles 13 and 14 of EU Regulation 2016/679 – GDPR)

Pursuant to Regulation (EU) 2016/679 on the protection of natural persons with regard to the processing of personal data (GDPR), the Company hereby informs that the personal data of its customers and suppliers will be processed in compliance with the principles of lawfulness, fairness, transparency, data minimization and protection of confidentiality.

1 **Data Controller: INTERMAR CARGO SRL** Via Valmontone n. 22, 00172 Rome (Italy) – Tel. +390624417345, e-mail: info@intermarcargo.com, e-mail pec: info@pec.intermarcargo.com
2 **Categories of data processed:** the Company may process the following categories of personal data: identification data, contact details, tax and administrative data, bank and payment details, any other data necessary for the execution of the contractual relationship.
3 **Purposes of processing:** personal data are collected and processed to fulfil obligations related to the Company's business activities and to manage the contractual and commercial relationship. In particular, the data may be processed for: management and execution of contractual relationships, administrative, accounting and financial obligations, commercial and promotional activities related to the Company's services, credit management and debt recovery, internal statistical analysis aimed at improving the quality of services.
4. **Legal basis for processing:** the provision of personal data is necessary for the establishment and proper management of the contractual relationship. Failure to provide the requested data may make it impossible to establish or continue the business relationship. Personal data may be processed without the consent of the data subject, including in judicial contexts, pursuant to Article 6(1) of the GDPR in the following cases:
a) the processing is necessary for the performance of a contract to which the data subject is a party or to take steps at the request of the data subject prior to entering into a contract;
b) the processing is necessary for compliance with a legal obligation to which the Data Controller is subject;
c) the processing is necessary to protect the vital interests of the data subject or of another natural person;
d) the processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the Data Controller;
e) the processing is necessary for the purposes of the legitimate interests pursued by the Data Controller or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data, in particular where the data subject is a child.
5 Methods of processing: personal data are processed using manual, electronic and IT tools, according to procedures strictly related to the purposes indicated above and adopting appropriate technical and organizational security measures to ensure the protection of personal data. The data are processed by authorized personnel who have been appropriately instructed in matters relating to personal data protection.
6 Data disclosure: in addition to the Company's employees and collaborators, the following categories of recipients may become aware of the personal data: companies, corporations, organizations and consortia, banks and financial institutions, tax, legal and administrative consultants, IT service providers and management software providers, professional associations, commercial agents and partners operating both in Italy and abroad.
7 Transfer of data outside the EU: personal data are stored on servers located within the European Union. Should it become necessary to transfer personal data to third countries or international organizations, such transfer will take place in compliance with Articles 44 and following of the GDPR.
8 Use of Artificial Intelligence systems: during its business activities, the Data Controller may use IT tools and digital platforms incorporating Artificial Intelligence (AI) technologies to support certain operational and organizational activities, such as document management and analysis, support in drafting communications, optimization of administrative and management processes. Such tools are used in compliance with the principles established by the GDPR and applicable data protection legislation. AI systems are used exclusively as support tools for business processes, and all relevant decisions remain subject to human supervision and evaluation. No decisions producing legal effects or significantly affecting the data subject are taken solely based on automated processing, in accordance with Article 22 of the GDPR.
9 Data retention: personal data will be retained for the time necessary to manage the contractual relationship and subsequently for the period required by applicable civil, customs, tax and accounting regulations.
10 Rights of the data subject: at any time, the data subject may exercise the rights provided in Articles 15–22 of the GDPR.

The data subject declares that he/she has received and read this Privacy Notice regarding the processing of personal data pursuant to Articles 13 and 14 of Regulation (EU) 2016/679.
